BE CONTENT.—Freeman Hunt, in his "Worth and Wealth," thus beautifully and truthfully depicts the charm of a contented spirit—of such an one as it is written, "A contented mind is a continual feast."

"The health and strength and freshness and sweet sleep of youth, are yours. Young Love, by day and night encircles you.—Hearts unsoiled by the deep sin of covetousness, beat fondly with your own. None—ghoul-like—listen for the death-tick of your chamber. Your shoes have value in men's eyes, only when you tread in them. The smiles, no wealth can purchase, greet you living; and tears that rarely drop on rosewood coffins, will fall from pitying eyes upon you, dying. Be wise in being content with competency.

You have, to wear, enough? Then have you all the rich hath. What though he fares more sumptuously? He shortens life — increases pains and aches—impairs his health thereby. What if his raiments be more costly? God loves him none the more, and man's respect in such regard comes over mingled with his envy.

Nature is yours in all her glory; her ever-carrying and forever beautiful face smiles peace upon your peace. Her hills and valleys, fields and flowers, and her holy places know no desecration in the step of poverty; but welcome ever to wealth and beauty, rich and poor alike.

Be content! The robbin chirps as gayly as the gorgeous bird of Paradise. Less guady in his plumage less splendid his surroundings. Yet not joy that cheers the eastern beauty, but comes upon the barren hills to bless the nest that robin builds.—His flight's as strong, his note as gay; and in his humble home, the light of happiness shines all as bright, because no cloud of envy dims it. Let us then, labor and be strong, in the best use of that we have; wasting no golden hours in idle wishes for things that burden those who own them, and could not bless us if we had them, as the gifts already bestowed by a wisdom that never errs. Being content, the poorest man is rich; while he who counts millions, hath little joy if he be otherwise.

Singular and Fatal results from Lightning.

Our exchanges from all parts of the country are filled with accidents and deaths which have occurred from the very unusual amount of lightning with which many sections have been visited this season.

We have had as yet no cases of death or material injury either to men, animals or property, to record in our own immediate vicinity, from this cause, for this we are truly thankful, and feel that we should lay aside the invectives, which we in common with our neighbors have made against the harmless fog—which has rapt us so closely in its chilling embrace, and perhaps, served as a protection against the greater and more fatal caprices of weather, with which many parts of our country have been afflicted.—We give below a slight abstract of some of the cases of death and injury from lightning which have reached us :—

* * * * * "Last Wednesday evening three farm laborers, were going home from haying, near Utica, with their pitchforks on their shoulders.—Two of them threw aside their forks, fearing the lightning which was playing in the heavens. One who was in the centre persisted in retaining his fork, and walked along with the points in the air. A flash of lightning killed him, while his companions were prostrated only for a moment.—In Richmond, Va., the same day, a negro girl, sixteen years of age, who was cleaning knives in a shed in a yard, was struck dead by a bolt, and her knives scattered.—At Fountain Prairie, Ohio, July 13, the weather being sultry, and a thunder storm prevailing, a Mr. Nathaniel Kenyon took some bed clothes, spread them on the floor, and lay down. Mrs. Kenyon was laying down on a settee in the same room, when a flash of lightning struck the building.—Mrs. Kenyon saw the electric fluid playing around her husband't head, and thinking his hair had caught fire she went to him and found him dead.

"A thunder storm was experienced in New York city, on Thursday evening. One person was killed by the lightning, Robert McKnight. He had left his home about half-past seven o'clock, for the purpose of purchasing some goods. On his return, he was overtaken by a sudden shower and must have taken shelter in the porch of the house of Mr. Stephen Jackson. While there, the lightning struck the building at the rear corner, and, passing through the third story to the second and thence to the front of the building, destroyed the windows on the front, and passing down to the casing [illegible] head of the deceased just over the left eye. Mr. Jackson, having occasion to go to the front door a moment afterward, discovered something lying on the sidewalk on fire, and on examination, perceived it was a man.—He called assistance, and removed the body, when it was found that Mr. McKnight was quite dead, and must have been killed instantly. His clothes were torn from his limbs, and his boots were torn in shreds.

"As in the case of the Flume House, the flagstaffs upon the tops of two hotels were struck, viz: the Brandreth House, on Broadway, and Patten's Hotel, on Greenwich street. In both hotels some damage was done, such as melting bell-wires, stopping time-pieces, &c., &c.

"We hear of more deaths in Vermont from this cause. A Mr. Dean of Walden was killed on the 18th inst., and the Windsor Journal is informed of four more deaths in towns at the North.

"On Sunday morning last, as the congregation were coming out of the Roman Catholic Church at Coteau du Lac, Canada, a flash of lightning struck the tower, and descending killed instantaneously a young woman, aged about 20."

We wish it distinctly understood that in consequence of having been abominably and repeatedly cheated by strangers, we shall in future insert no advertisements nor furnish printing for any one with whom we are not acquainted, unless payment is made in advance—*Bristol Phenix*.

The Providence Journal responds to this sentiment of the *Phenix* in a hearty and sensible manner, urging its adoption by all neighboring papers. No one can doubt what is assured by the *Journal*—that such a plan is found to work to the complete satisfaction of those who employ it. Our own experience goes to show the perfect appropriation and feasibility of requiring advance payment for transient advertisements.

THINGS TO REMEMBER.—If you do not keep your paper, cut this out and put it where you can find it.

A surveyor's chain is 4 poles, or 76 feet, divided into 100 links, or 792 inches.

A square chain is 10 square poles, and 10 square chains is an acre.

Four roods are an acre, each containing 120 square yards, 34,787 feet, or 24 yards 28 inches on each side,

A pole is 5 yards and a half each way.

An acre is 4840 square yards, or 69 yards 1 foot 8 1-2 inches each way; and 3 acres are 120 1-2 yards each way.

A square mile, is 1700 yards each way, is 640 acres; half a mile or 880 yards each way, is 160 acres; a quarter of a mile, or 440 yards each way, is a park, or farm, of 640 acres, and a furlong, or 220 yards each way, is 10 acres.

The Washington States, in rebuking the Charleston Mercury for its complaints of the administration policy in Kansas, says:

"It is unmanly and unchivalrous to thus openly attack the administration with betrayal of Southern interests for its sworn duty to carry out a measure the South forced upon it."

LOCAL NEWS.

☞ The son of Mr. Henry Tiffany, who accidentally shot himself a few days since, is in a fair way of recovery, as we learn from his physician, Dr. Dunn. The statement of the *Mercury* of Saturday was, we believe, erroneous in two particulars—Dr. Dunn—not Dr. King—has been the medical attendant of the boy from the beginning; and there is scarcely the slightest possibility of the ball having touched the hip bone. So long as the lad is doing well, the precise nature of his wound may indeed seem of but small consequence to the public. But such is not a fact in respect of a mistake in repeating the name of his physician. Professional reputation and responsibility demand, at least, that he who has charge of an important case be correctly known, if known at all. In this way, whatever be the result, praise or censure, need not be dealt where undeserved.

☞ A dangerous pitfall exists at the head of Broad street, in the form of an uncurbed well, across the mouth of which no barrier has been thrown, sufficient to guard against a chance footstep. This trap is situated where, in the night-time, travellers by horse or on foot would be very likely to test its efficacy. As we should be pained to record an instance of accidental death from broken bones and drowning, through the negligence of our city authorities or others, we beg that a suitable covering or curb be furnished for the aforesaid well, forthwith.

☞ We are in receipt of a copy of the "Revised Statutes of the State of Rhode Island." The style of this volume as regards type and binding is most handsome and serviceable. The eminent attainments of the members of the Committee by whom it was prepared for the press, has rendered it a flattering expositor of the legal ability of this State. The price of the book is so low as two dollars—a cheapness which should lead to the purchase of it by every individual of our community.

☞ We learn that James Gallatin, Esq., of New York city, has taken Mr. Vose's cottage on the Bath road.

City Hay Scales.

Sometime since we drew attention to the fact that there existed a necessity for City Hay Scales, in consequence of the extreme inconvenience experienced by farmers, in bringing their loads to one of the coal wharves for weighing, and again carting them back to their customers. In pursuance of this idea, the City Council recently resolved to locate them in "LibertySquare," as the little plot of ground at the junction [illegible] is facetiously termed. It is one of the best possible locations, being central, just large enough, and on the way for the island teams to almost any part of the city. We regret however that an insuperable difficulty exists, which will prevent their location in that place unless the city can get a Legislative act, to that effect.

The following document, which was recovered and transcribed from the town records, recovered from the English man-of war, sunk at Hell gate, N. Y. is, we suppose conclusive on this point. It was furnished us for publication, by an heir of one of the original donors, who at the same time expressed a strong objection against any violation of the original agreement :—

We hope our city fathers, if they cannot make any satisfactory arrangement to locate the scales in the spot which we have so urgently recommended, will not neglect to provide *some* suitable place for them, as, for instance, in the upper and widest part of Broad street.

Several of the inhabitants of the town have petitioned to the Quarter Meeting this day, setting forth that the piece of land lying between the houses of Jonathan Nichols, Benjamin Thurston, Timothy Waterhouse and Joseph Proud, was many years past bought by Maj. Nathaniel Sheffield and Mr. Daniel Thurston, of Mr. Jonathan Holmes, and by them given to the town of Newport, to be and remain as a Common for a mustering place for the ——* free and clear from all incumbrances forever; but the same not being now to be found, and they desiring that there be a record made that said piece of land or Common shall be and remain for the use before mentioned forever, which said petition being read in the Quarter Meeting, it was voted that said land shall ye and be, and remain a perpetual Common, for the use before mentioned forever.

Town Clerk's Office, Newport,
June 4th, 1825.

I hereby certify that the above is as true and correct a copy from the old record as I could make it; and that the next Quarter Meeting was held October 5th, 1748, as appears by the date on the same page following the above.

CHARLES GYLES, *Town Clerk.*

The foregoing ancient record having been read, it was voted on the request of Edward Tayre and others, that the same be entered on the present book of Town Meeting proceedings.

An Invitation.

Come to the Ocean Hall to-morrow !
If you've no money, beg or borrow;
Or if you chance to have no friend,
Who'll either give, or let, or lend,
Come not the less, and at the least,
Your *eyes* shall share a goodly feast:
Dry goods, (and wet) you there shall find,
And curious things t' amuse the mind ;
Tempting embroideries, rich and rare,
Wrought finely *for* and *by* the fair;
Cakes, coffee, candies of all sorts—
And things, in Marblehead, called *torts;*
Knick-knacks for old and young, and flowers,
And music to beguile the hours—
And books, too, such as ne'er before,
Nor since, were seen in any store—
With pictures filled, and rhymes to match,
Adapted every taste to catch—
And one thing more, though last, not least,
To grace and crown the gorgeous feast,
'Most everybody there will be—
With children, wife and family.

NO MEN.—The want of men which was so severely felt at Newport last season—whether it prevails or not this season we are not informed—has reached other watering places, and unless some means are continued for suppressing the alarming epidemic, it is difficult to say how wide and deep its ravages may extend. Of course, it is understood that men who do not dance are not included in any census taken at these places. A correspondent of the New York Post writes from Saratoga :

"There is a band of suffering young ladies here. Young ladies dying for want of young gentlemen to dance with. Their hearts are broken and their souls harrowed up by the dismal fact that dancing men are at a discount. Various schemes have been suggested to remedy this want, but thus far, alas! without success. A levy was made some time since on Sharon and other watering places, but a dreadful silence was the sole answer to the affecting appeal. Young men of the present day are not only revolting objects, but they are also in a state of revolt. The chivalry of America is fast dying out, at least to Saratoga's appeals, and soon those worthy members of society—fiddle scrapers, cornet blowers, &c., will find their summer's occupation gone. But what is there that despair will not effect? Even cornered rats will turn, and cornered young ladies must have 'a turn.' In their dilemma, and as a forlorn hope, they came to me. I have always played second fiddle; that is to say, when the younger men were away. I was 'such a dear man,' &c.; so, of course, I took them to the lake, or out walking, or bowled with them; but now I must not only play second fiddle, but furnish them partners. The only idea that struggled through my obtuse brain was (and what I still consider a grand and appropriate one) that they should dance with one another. This proposition was received with the most undisguised contempt. No, they must have men to dance with; that is, human beings in tail coats, pumps and trowsers. Being neither a married man, nor, if I were, such a Turk as to have forty sons, I was unable to alleviate their miseries. I gave up the problem, but I now remember having noticed a very mysterious smile flitting over the face of one of the ladies. The next day I was waited on by a very elegant man with a fiddle, who politely informed me that he was a dancing-master, and had been engaged to teach me the steps."—*Prov. Jour.*

QUACKISH VILLANY.—Advertisements are to be seen at the present time, in most of the papers, of a medicine for consumption, entitled a preparation of Cannabis Indica, or Indian hemp. It is set out with all the usual positive and flattering assertions; and the most attractive pictures of the nature of its operation. The motive is plain enough. The vender knows its infernal nature well enough, doubtless, to assure him that, once accustomed to it, the sick will keep on using it, till it—not cures them—but destroys them. The Indian hemp is one of the most seductive of intoxicating drugs, surpassing even opium in its power of producing a temporary exhileration, and just as much more terrible in its after effects, as it is more powerful. It is extensively used in some parts of the East as a means of intoxication, and exerts, as all such things do, a power that seems like that of facination over those who have formed a taste for it. To advertise it as a powerful remedy in consumption, is to our mind one of the most atrocious and heartless attempts to make money at the expense of human life and happiness. It is a trap to draw the unwary into a habit that will enslave them to a deadly drug, and quench their life, both of body and mind, in a most miserable and debasing self indulgence. The effect on the sick is not all; for naturally its introduction into use will lead many not really sick to form a habit of using it, and so another agent of drunkenness, worse than alcohol a thousand times, and to be compared only to opium, will be put as a snare in the path of the weak and unwary.—*Clinton Courant.*

STANDING YACHT CLUB PRIZE.—The cup won by the Yacht America at Cowes, in 1851, has been given to the New York Yacht Club, on condition that it shall always be subject to be contended for by any foreign yacht club, and when won shall be held by the new possessor subject to the same condition, to be the property, not of the winning yacht or of the owner thereof, but of the club, and always liable to be sailed for on the original terms. So that the possession of the cup shall be the evidence of the best sailing. The New York Club have issued a circular announcing their acceptance of the cup on these conditions, inviting the clubs of other nations to a friendly competion, tendering to any gentlemen who may favor them with a visit and enter into the contest, a liberal, hearty welcome, and the strictest fair play.—*Prov. Jour.*

INCREASE OF POWER.—We are informed that the mill owners at Central Falls are discussing the propriety and feasibility of materially increasing the water power of that thriving village. From those well versed in such matters we learn that an outlay of a few thousand dollars would enable the owners of water power to increase their business considerably, or let power to other parties. We hope this proposed improvement will be carried out immediately, as upon it much of the future growth and prosperity of that pleasant village depends.—*Pawtucket Gazette.*

☞ Dr. Franklin, when he first established himself in business in Philadelphia, wheeled home the paper which he had purchased for his printing office, on a wheelbarrow with his own hands

A TWO-EDGED SWORD FOR CHIEF JUSTICE TANEY.—We take pleasure in furnishing Chief Justice Taney with the following extract from a law of Massachusetts, passed in 1788, just about the time of the adoption of the constitution. How could he have overlooked so notable a proof that negroes at this time were not supposed to have any rights "which the white man was bound to respect ?"

It will be observed that law furnishes an illustration of the low esteem into which the African race had fallen in Massachusetts at the period in question.

And it will also be noticed that it puts upon record the opinion in the State of Massachusetts in 1788, that negroes were at that time citizens in some of the United States.

It may perhaps be this double-edged property of the argument, now presented to the Chief Justice, that prevented the use of it in his opinion.

Here is the law, which we offer to the Chief Justice with our compliments :

"No person, being an African or negro, other than a subject of the Emperor of Morocco, or a citizen of some one of the United States, shall tarry within this Commonwealth for a longer time than two months; and if any person so tarry for a longer time he shall be ordered to depart; and if he disobey he shall be imprisoned at hard labor till the next Sessions of the Peace, when, if convicted, he shall be whipped with stripes not exceeding ten, and ordered to depart within ten days : and so on *toties quoties.*

ALPINE HAIR BALM
FOR
[illegible] Original Color.

WARRANTED to cure Baldness, Scurf Dandruff, itching and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the Hair, and gives it a natural color without the use of Hair Dye.

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off, composed of Oils, Alcohol and other deleterious materials, and all to no use. Hair Dyes have been introduced that do not give the Hair a natural color, besides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was heeded to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy. It is soothing and emollient allays all irritation of the scalp, thereby stopping that troublesome itching. It cures Dandruff and Scurf, and when the Hair has turned gray it will bring it back to its original color be it Black, Brown or Auburn. It makes the Hair soft and glossy—prevents it from falling off, as will be seen by using this Balm for only a few days—life will be given to the roots of the Hair, and growth will soon appear.—Growth does not take place at the end of the Hair, as will be seen in persons who have their Hair dyed. If you examine gray hair that has been cored for a week, you will find towards the roots that the hair has come out gray, hence it is necessary to have the fluid at the roots of the hair healthy, that the whole hair may be a natural color. Each hair has a root in the skin, and is of itself a hollow, gray tube, through which there is a constant circulation of the pigment from the root.—When this pigment or coloring matter dies out, it leaves the hair hollow and it becomes gray. To invent a Balm that would produce this pigment has become the study of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring the Hair to its natural color by making anew the coloring matter in the roots of the hair.

It is a mistaken notion that oil or grease will restore the hair, as nothing can be more injurious. The Alpine Hair Balm, will restore the skin and save the hair of those who have been sick with fever or any disease.

GREAT BRITAIN—In the House of Commons, Mr. Lindsay moved for the production of Mr. Marcy's letter on privateering. Lord Palmerston said it was not officially in the hands of the British government, and could not therefore be produced. After a few remarks from Lord John Russell and Sir Charles Napier, as to the ill effects of any new arrangement of this subject in England, the motion was withdrawn.

An address to the Queen was adopted, praying for the use of additional means in her Majesty's power to suppress the African slave trade, and the fulfillment of the several treaties on the subject. Lord Palmerston pledged that the government would carry out the request.

FRANCE—The Paris correspondent of the Times states that the conspiracy recently discovered was the most serious of any we have any knowledge of, both as to the character of the persons concerned, the extent of its ramifications and the objects proposed, which included the assassination of the Emperor, and a revolution throughout Southern Europe. Members of a Provisional government were already named by the conspirators, and plans were pretty nearly perfected when the discovery was made.

INDIA—The Indian mail has arrived at London. Dates from Bombay are to June 15, Calcutta, 7th.

The disaffection was entirely confined to the army, and the native troops have been disarmed at most of the stations in the Punjaub.

EAST INDIA AND CHINA—In Bombay the money market was very uneasy, amounting to almost a panic.

Trade at Hong Kong and Shanghai was quiet. Nothing doing in freights. Exchange at Shanghai, 7s 2d a 7s 3 1-2d.

The American house of King & Co., at Hong Kong had suspended. Liabilities $150,000, mostly to China.

ADDITIONAL FATALITIES FROM LIGHTNING.—At Belfast, Me., on the evening of July 20th, the house of George W. Read was struck by lightning, and a son of Mr. R., who was in the act of ascending the stairs, was instantly killed. Another son was badly injured. The house of Gen. Veazie, at Veazie, was struck and badly damaged, but no person was injured. At Vernon, Me., Henry Yeaton was struck and instantly killed.

We learn from the Coos (N. H.) Republican that during a thunder storm on Monday of last week, a young man by the name of Joseph Roby was struck by lightning and instantly killed, in Clarksville. He was sitting in a house near the stove at the time. His cap and boots were torn in pieces, but no mark was found upon his person. Mr. Roby was about twenty-three years old.

MORE REBELLION FOR GOVERNOR WALKER.—The people of Kansas are already moving for a Agricultural Society. A meeting at Topeka appointed a committee to initiate such an association. Gov. Walker will have to issue another proclamation, for the territorial laws do not authorize such a treasonable proceeding.

NEW ADVERTISEMENTS.

NOTICE.

MAYOR'S OFFICE,
Newport, July 25, 1857.

HAVING received reliable information that owners and consignees of vessels, which are bound from infected ports to ports in the United States where Quarantine laws are rigidly enforced, have ordered said vessels to discharge their cargoes at this port,—I hereby give notice that the following ordinance will be vigorously enforced from and after this date; and that John D. Cornell has been appointed Health Officer and Sentinel :—

AN ORDINANCE IN RELATION TO QUARANTINE.

Be it Ordained by the City Council, as follows :

Section 1. A quarantine shall be had of all vessels, their officers, crews, passengers and cargoes that come within the harbor of Newport, which are from New Orleans, Mobile, or any port or place whatever, where any infectious, contagious or malignant disease prevails, or recently has prevailed, or which are foul or infected after their arrival; neither shall any vessel coming from an infected district, or on board which, during her voyage, any person may have died of an infectious disease, or whose cargoes or any part thereof has recently been brought from any such port or place, be unladen of any article which may be deemed by the Health Officer, capable of generating or communicating disease, until written permission therefor be obtained from the Mayor, or in his absence from a member of the Board of Aldermen.

SEC. 2. The Quarantine ground of the city of Newport, shall comprise all that part of the harbor extending North from a line drawn from the light house on Goat Island to the South extremity of Fort Greene, and East of a line drawn from the head of the Long Wharf to the Western extremity of Coaster's Harbor Island. The Mayor, or in his absence, a member of the Board of Aldermen, shall determine at what distance from the Asylum on Coaster's Harbor Island, the quarantine vessels shall be placed, so that the health of the poor that may be in the Asylum may not be endangered. All vessels that may be ordered into quarantine shall, during the time they remain in quarantine, wear a color in their shrouds, in such manner as to be seen at a proper distance.

SECTION 3. During the time any vessel is performing quarantine, no person shall go on board thereof, excepting those employed by or under the Health Officer, or by permission of the Mayor, or in his absence, a member of the Board of Aldermen carrying a certificate from the Mayor or said member; and every person who shall violate the provisions of this section, shall be liable to be considered as contaminated with infection, and held to undergo purification in the same manner and under the same regulations and restrictions, as those performing quarantine on board of said vessel, and shall remain there until discharged by the Health Officer, or the Mayor, or in his absence a member of the Board of Aldermen; and the Health Officer may forcibly detain such person or persons for the purposes aforesaid.

SECTION 4. It shall be the duty of the Sentinel to board every vessel arriving at this port between the 30th day of June and the 1st day of November of any year, and examine their condition, and if such vessel is liable to quarantine, to order said vessel to the quarantine ground and deliver the captain or commanding officer a copy of these regulations, and report to the Mayor, or in his absence, a member of the Board of Aldermen, her situation and circumstances, and shall by his advice and direction, take such measures for cleansing said vessel at the expense of the owners, master or commanding officer thereof, as are proper and necessary, and shall detain her on the quarantine ground, so long as the Mayor, or in his absence, a member of the Board of Aldermen, shall think it expedient, and all expenses incurred by such Health Officer during the time said vessel is quarantined, may be recovered by him in an action of the case, in the name of the City Treasurer, against said owners, master or commanding officer, or either or any of them, before any Court competent to try the same:

SECTION 5.—A person who shall be a Health Officer and a Sentinel, shall be appointed by the City Council, who shall receive such compensation for his services as may be allowed by the City Council, and they shall also appoint a Physician who shall be called the Port Physician, who shall receive such compensation as may be determined by the City Council, to be paid him by the master or commanding officer of the vessel which he shall board; it shall be his duty when called upon by the Health officer, to visit every vesel ordered into quarantine, to direct the care and attendance of the sick. The Mayor, or in his absence, a member of the Board of Aldermen, may in his discretion order any sick person to be removed from such vessel, and carried to some suitable place out of the compact part of the City, to be provided and designated for that purpose by the City Council, and there to take care of under the direction of the Health Officer until cured, which shall be determined by the attending physician of such person, who shall give such person a certificate that he or she is entirely free from contagious disease; and all expenses for removal, nursing and attendance of such sick person, shall be defrayed by such person, or by the owners, master, or commanding officer of such vessel, and may be recovered in the same way as is provided by the 4th section for the recovery of charges incurred in cleansing such vessel. The Port Physician shall daily report to the Mayor, or in his absence, a member of the Board of Aldermen, the situation of every sick person, and give a certificate to the master of each vessel when he shall think proper, that such vessel may be discharged from quarantine.

SECTION 6.—All violations of the provisions of this ordinance shall be punished as is provided by the third and fourth sections of an Act, entitled "An Act constituting the several Town Councils ex-officio Boards of Health," contained in the laws of the State.
jy27—2d W. H. CRANSTON, Mayor.

KEEP COOL!

W. F. Shaw's
PATENT GAS HEATING
—AND—
GAS COOKING STOVES.

THE only true principle whereby all unpleasant and injurious odors are avoided.

This apparatus is *warranted* to cook the food for a family at one quarter part the cost of doing the same by any other gas stove ever offered to the public.

Secured by 8 American, 1 English and 1 French letters patent. Invented and patented by

W. F. SHAW.

The First Premium and ONLY GOLD MEDAL *ever awarded on GAS STOVES by the Massachusetts Charitable Mechanic Association*, was awarded to W. F. SHAW, who has also received a medal from the American Institute, N. Y.

These are the only desirable inventions for cooking or heating by gas ever offered to the public, and are the results of upwards of seven years' experiments and experience of the inventor and patentee.

W. F. Shaw's Patent Gas Nurse Lamp, or Gas Heater, for boiling small quantities of water by being placed over any gas burner.

The undersigned having received the Agency for the sale of the above Stoves, offers them to the public as the *very best* article yet manufactured for cooking or heating by gas. They are economical and free from odor of any kind in operation, bake bread and meats superior to coal ovens, and should have a place in every household.

Satisfactory references from reliable parties using them in this city, can be had upon application at my office, where the public are invited to call and examine the articles.

State Assayer's Office, 16 Boylston Street, Boston, *May 29*, 1857.

H. C. THACHER, Esq., 13 Central wharf, Boston.

Dear sir:—With this you will receive the detailed results of analysis of two samples of Bourbon Whiskey, manufactured by Mr. J. H. Cutter, of Louisville, Ky.

It will be seen that *these Whiskies are pure and unadulterated, and entirely free from any mineral or vegetable drug or poison*, and as such I can recommend them for medicinal use.

Respectfully,
A. A. HAYES, M. D.,
Assayer to State of Mass.

State Assayer's Office, 32 Somerset Street, Boston, May 29, 1857.

H. C. THACHER, Esq, 13 Central wharf, Boston.

Dear sir:—I have made a chemical analysis of the sample of "Old Bourbon Whiskey" you brought to me, made by John H. Cutter, of Louisville, Ky. and find that it is *free from all poisonous matters*, and has 49 per cent of absolute Alcohol in it—and about 4 ounces of Saccharine matter to the gallon. It is a PURE and *unadulterated* Liquor, and is suitable for medicinal use. Respectfully your obt servt,
CHAS. T. JACKSON, M. D.,
State Assayer.

A constant supply of this Whiskey can be obtained of the Agents. Be sure that you obtain *John H. Cutter's* Old Bourbon Whiskey!

COAL.

LYKENS VALLEY COAL—The subscriber was the first to introduce Lykens Valley Coal into this market, and it has proved a good family coal. The only objection to it is the clinker and the manner in which it has been shipped for the last two or three years.—I have now to offer the Trevorton coal equal in all respects, and superior, as regards both the manner of shipment and the clinker.—Certain interested parties have endeavored to coerce the dealers in this and other markets into the purchase of the L. V. coal of them, by means of advertisements headed "Caution," as though dealers who do not purchase *short mountain* (sold for Lykens Valley) of them, were palming off an inferior article upon the public. Persons unacquainted with the Trevorton Coal can examine and test it with the Short Mountain (Lykens Valley) coal, at Wm G. Peckham's or on the wharf of the subscriber.

RATHBUN'S
Ambrotype Gallery.
AT APOTHECARIES' HALL, WASHINGTON SQ.
(Near the State House.)

THE only place in the city where a good picture can be obtained. The brilliancy and strikingly life-like expression of Rathbun's Pictures, are daily recommending them to all lovers of Perfect Likenesses.—The peculiar nature of Rathbun's chemicals and superior instruments (for which he has spared no expense in selecting) are such as to render his pictures almost nature itself, and they are entirely devoid of that sickly, deathlike appearance which is generally attached to Ambrotypes executed by those who do not understand or have no taste for the art. To all those who may want a good picture, whether Ambrotype or Melainotype, I would extend to them an invitation to give him a trial, and if it is not satisfactory, no charge will be made. A large assortment of every thing pertaining to the profession may be found at Rathbun's Rooms, F. H. RATHBUN,

FOR THE HAIR.

The Greatest Discovery of the Age.

PROFESSOR WOOD offers for sale perfect HAIR RESTORATIVE. It in a short time restore the Hair, which become gray prematurely, to its original colo—bring it out where it is gone, and arrest when it is falling off—cleanse the head of dandruff and itchings—remove all cutaneous eruptions, and render the scalp perfectly healthy, by restoring the secretive organs to their original vigor and strength, and thus supply nutriment and coloring matter to the roots. It does not Dye the hair, but is, in short a perfect Hair Invigorator and Tonic.

To the young, who so much admire the beautiful looks and ringlet, he feels that he will be pardoned if he offers the advice suggested by long study and extensive observation. It is to discard all cologne and stimulating oil for the hair, and keep always upon the toilet a bottle of the Restorative for occasional use and we can safely predict, that henceforth silver locks will be upon bald heads. Let the dark eye be ever so piercing,—and the teeth be those of pearl—still, if the natural fluids be withheld from the hair, and in consequence becomes first dead and harsh, then gray, or falls off nature will be robbed of more than half its charms; as it is a sovereign remedy for those who are gray as well as those who are bald, all must see the propriety of making only such application to the hair and scalp as is calculated to preserve both in a healthy state.

From the editor of the Real Estate Advertiser No. 2 School Street.

Boston, March 20, 1855.

Prof. Wood—Dear Sir—Having become prematurely quite gray, I was induced some 6 weeks since, to make a trial of your Hair Restorative. I have used less than two bottles, but the gray hairs have disappeared; and although my hair has not fully attained its original color, yet the change is gradually going on, and I have great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which, before was harsh and dry, and it has ceased to come out as formerly.

Respectfully yours,
D. C. M. RUPP.

Milford, Worcester Co., Mass., Nov. 13th 1855.

Prof. O. J. Wood—Dear Sir—I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As far back as 1856 my hair commenced falling off until the top of my scalp became bald and smooth as glass, and it has continued to fall off for a great many years, notwithstanding I have used many celebrated preparations for its restoration. Seeing your advertisement I was induced to give your article a trial, and to my utter astonishment I found after a few applications that my hair became firmly set and assured by very glossy and beautiful appearance; and at the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches in length, and growing very fast.

Yours, truly,
HENRY GOODRICH.

Carlyle, Ill., June 27, 1856.

I have used Prof. O. J. Wood's Hair Restorative, and as I thought permanently gray, but by the use of his Restorative, it has resumed its original color, and I have no doubt permanently so.

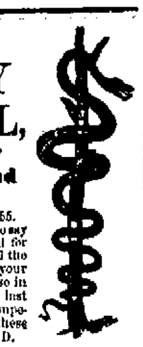
AYER'S CHERRY PECTORAL,



FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,
ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Practical and Analytical Chemist, Lowell, Mass.

AMERICAN AND FOREIGN OFFICE.

R. H. EDDY, Solicitor of PATENTS
(Late Agent of U S. Patent Office, Washington, under the Act of 1837.)
NO. 76 STATE, OPPOSITE KILBY ST., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries.—Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington.

This Agency is not only the largest in New England, but through its inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpased by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. Theses esides his extensive library of legal and mechanical works, and full accounts of patent granted in the United States and Europe render him able, beyond question, to offer superor facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

During the time I occupied the office of Commissioner of Patents, R. H Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of procuring Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents

From the present Commissioner.

AUGUST 17th, 1855.—During the time I have held the offic of Commisoner of Patents, R. H. EDDy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse CHAS. MASON,

LOTTERIES.

LOTTERIES.—The well known Maryland Consolidated Lotteries, of which R. FRANCE & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day in the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes hand. The prices of tickets vary from $1,00 to $20.—No tickets however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to 1000,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over. Address

T. HUBBARD & Co.
No. 39 Fayette st., or Box No. 40,
jy27 Baltimore Maryland.

☞ The Drawn Numbers of the Maryland Lotteries are published by the State Commissioner in the following Papers, viz. Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D. C.

LOTTERIES.—The Lotteries of Samuel Swan & Co., are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner.—They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co., are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5 quarters, $2 50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mistify the buyer. Prizes vary from $40 to $50,000; every prize being drawn and result of drawing forwarded to purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount that each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans Delta, Mobile Register, Charleston Standard, Nashville Gazette, Atlanta Intelligencer, and New York Weekly Day Book.—Write your address plainly, and direct S. SWAN & CO., ATLANTA GEORGIA.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

THE GREATEST WONDER OF THE AGE.

A REMEDY which CURES IN FIVE MINUTES.—M. LEROUX'S French Cholera Cognac Bitters. This truly wonderful scientific compound is recommended by the most eminent and learned physicians of all Europe and America, and enjoys the best reputation of anything similar ever offered. It is without doubt, the best most efficient and generally acknowledged remedy against cholera, dysentery, diarrhoea, and complaints of the stomach in general. The numerous patients who have tried it according to directions have invariably found relief in a very short time, and the best proof of it is, that since this standard remedy was introduced in the armies of the Allies in the Crimea, the mortality of the soldiers from cholera and similar diseases was diminished by over 75 per cent.; in consideration of which, the inventor was presented by the French and English governments with a gold medal, bearing the inscription "Hail! M. Leroux, the great chemist and invenjor, by whose knowledge our armies are preserved from cholera."

This invaluable preparation is also a remedy for billiousness, indigestion, weakness, and general derangement of the stomach. Upon being taken, it creates appetite, and prevents the heaviness attendant upon eating by persons who are dyspeptic.

In this city, also this remedy has been tried with the most undoubted success, and the undersigned can produce the best testimonials of our most celebrated physicians, as to its immediate and complete success, which he will be happy at any time to show to any that may wish to see them.
